 - Windows Mobile
- Other
- Extend and customize
- Training and support

Set up other mobile devices

You can access your Google Apps email and calendar on a wide variety of devices using the phone's mobile browser. The mobile browser offers familiar features like Gmail archiving and labels, it's always in sync with Gmail's main server, and there's no setup required.

Using a mobile browser

- For email, go to <http://mail.google.com/a/awplaw.com> on your device's browser.
- For calendar, go to <http://mail.google.com/a/awplaw.com> on your device's browser.

In addition, if your device supports IMAP, you can configure Gmail on the phone using [these instructions](#).

If you have any problems, please contact your mail client's customer support department.
